

# Careers Information, Advice and Guidance Case Study

**NUS** (National Union of Students) is a voluntary membership organisation which makes a real difference to the lives of students and its member students' unions. We are a confederation of 600 students' unions, amounting to more than 95 per cent of all higher and further education unions in the UK. Through our member students' unions, we represent the interests of more than seven million students.

**Your case study will help us to campaign so more people can access education, thank you.** NUS will never give your details out without your permission and we will never offer you up to be a case study for media work without checking with you first.

NUS will offer you up as a case study in good faith, but we do not have editorial control over any media outlets and cannot fully control how your case study will be used externally.

If you do decide to speak to the press about your experiences, please note that there is no guarantee that they will use your interview footage or quotes. Sometimes journalists have to drop stories to react to an ever changing news agenda, and again this is something that NUS has no control over.

Please send your completed case study to [Katie.shaw@nus.org.uk](mailto:Katie.shaw@nus.org.uk)

If you would like to provide an accompanying photo of yourself with your case study, please attach it when you return this form.
