# Project overview

## Objectives

NUS Insight conducted a survey alongside One Voice Digital who run the TOTUM product for students, and NUS member students' unions to understand more about how students feel about the current Coronavirus (Covid-19) pandemic.

## Explanation of weighting

For Scotland we achieved an original sample of **625** students. We have weighted the data to reflect the student population of Scotland resulting in 639 responses.

## Methodology

A sample of **9872** was achieved overall and in Scotland we achieved **639** responses.

Respondents were given a chance to win £500 to encourage response.

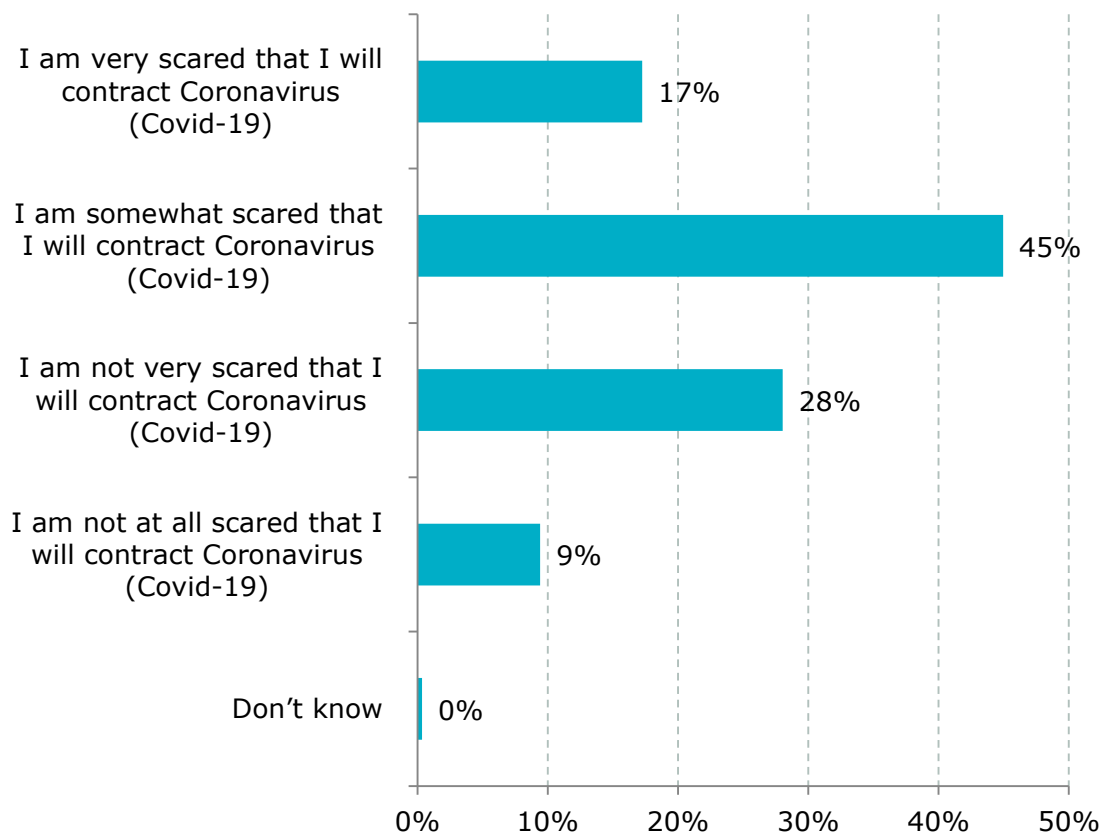

The survey was promoted via the NUS Student database, the TOTUM database, through social media & via NUS' member unions at the end of March 2020.

The survey took 20 **minutes** to complete & was in field from Friday 27<sup>th</sup> March until Monday 6<sup>th</sup> April.

# Health, wellbeing and welfare

Less than one in ten students in Scotland are not scared at all about getting Covid-19.

### Feelings towards contracting the Coronavirus (Covid-19)

Weighted Base: 639 respondents.

**B1. Which, if any, of the following statements best describes your feelings towards contracting the Coronavirus (Covid-19)?**

The majority of students in Scotland claim to feel prepared in some way to manage any health conditions they have should they contract Covid-19.

### Preparedness to manage health conditions if contract Coronavirus (Covid-19)

Weighted Base: 638 respondents. Balance: no response

**B2. How prepared are you personally to manage any health conditions you have should you contract Coronavirus (Covid-19)?**

Only one in ten of disabled students have been asked to confirm or declare any impairments that may relate specifically to Covid-19 and their ability to study.

### Declaration of any impairments

■ Yes

■ No

■ Don't know

Weighted Base: 237 respondents. Balance: those with no known disability, impairment or long term health condition, no response

**B3. Have you been asked to confirm or declare any impairments that may relate specifically to Coronavirus (Covid-19) and your ability to study?**

The majority of students in Scotland have practiced social distancing and have avoided crowded places in the two weeks before completing the survey. Over four in five have improved their personal hygiene or avoided seeing friends and family. Seven in ten have avoided going to University/College.

### Measures taken in the past 2 weeks specifically to protect yourself from the Coronavirus (Covid-19)

Weighted Base: 639 respondents. Balance: no response

Encouragingly almost three in four students are aware to some extent of the public health guidance on living in shared accommodation in relation to Covid-19. And over one in three claim to be 'very' or 'extremely' aware.

**Awareness of the public health guidance on living in shared accommodation in relation to the Coronavirus (Covid-19)**

Weighted Base: 635 respondents. Balance: no response

**B5. Are you aware of the public health guidance on living in shared accommodation in relation to the Coronavirus (Covid-19)?**

One in seven students in Scotland say that Covid-19 has had a very negative impact on their family life. A further half say it has had a somewhat negative impact.

### Impact of Coronavirus (Covid-19) on family life

The majority of students say that Covid-19 has had a negative impact on their friends and social life.

### Impact of Coronavirus (Covid-19) on friends and social life

Weighted Base: 635 respondents. Balance: no response

**B7. And, what has been the impact of Coronavirus (Covid-19) on your friends and social life?**

Students are most likely to be keeping in touch with friends and family via internet messaging apps (e.g. WhatsApp), phone calls and text messaging. Facebook is a popular option for seven in ten, and video calling being used by two in three.

### How students are staying in touch with friends and family

Students in Scotland are most likely to be keeping up to date with developments or latest government advice via news outlets online or on TV.

### How students are keeping up to date with developments or latest government advice on the Coronavirus (Covid-19)

Weighted Base: 639 respondents.

**B9. Which of the below do you use to keep up to date with developments or latest government advice on the Coronavirus (Covid-19)?**

# Support received from institutions about Coronavirus (Covid-19)

On the whole students agree that their institution has provided up to date news/developments, helpful support and practical advice on what action to take.

### Agreement with statements

Where students disagreed that their institution kept them up to date with the latest news/developments this was largely down to receiving information that was late, out of date or incomplete information. A tenth said they hadn't received any information.

**Reasons for disagreement that institution has kept you up to date with latest news and developments**

**17%  
disagreed**

Weighted Base: 107 respondents. Balance: those who agreed that their institution had kept them up to date with latest news and developments, no response

**C2. You've told us that you don't agree that your institution has kept you up to date with latest news and developments, why is that?**

Where students disagreed that their institution had provided them with practical advice on what action to take, this was largely down to receiving incomplete or out of date information. One in five said they didn't understand the information they were sent, and a quarter didn't receive any information at all.

**Reasons for disagreement that institution has provided you with practical advice on what action you should personally take**

**22%  
disagreed**

Weighted Base: 136 respondents. Balance: those who agreed that their institution had provided practical advice on what action they should personally take, no response

**C3. You've told us that you don't agree that your institution has provided you with practical advice on what action you should personally take, why is that?**

Where students disagreed that their students union kept them up to date with the latest news/developments this was largely down to simply not receiving any information, and one in three either received incomplete or late/out of date information.

**Reasons for disagreement that students' union has kept you up to date with latest news and developments**

**18%  
disagreed**

Weighted Base: 118 respondents. Balance: those who agreed that their students' union had kept them up to date with latest news and developments, no response

**C4. You've told us that you don't agree that your students' union has kept you up to date with latest news and developments, why is that?**

Where students disagreed that their students union had provided them with practical advice on what action to take, this was largely down to simply not having received any information at all. Less than a third received either incomplete or late/out of date information.

### Reasons for disagreement that students' union has provided you with practical advice on what action you should personally take

**21%  
disagreed**

Weighted Base: 94 respondents. Balance: those who agreed that their students' union had provided them with practical advice on what action they should personally take, no response

**C5. You've told us that you don't agree that your students' union has provided you with practical advice on what action you should personally take, why is that?**

One in four students in Scotland have already volunteered to help those within the community who are vulnerable or who may self isolating since the outbreak of Covid-19. A further quarter say they plan to volunteer in such a way.

**Volunteered within community to help those who are more vulnerable or those who may be self isolating since the outbreak of Coronavirus (Covid-19)**

■ Yes    ■ No    ■ Not yet but I plan to

Weighted Base: 637 respondents. Balance: no response

**C7. Since the outbreak of Coronavirus (Covid-19) have you volunteered within your community to help those who are more vulnerable or those who may be self isolating?**

Seven in ten agree that people at their institution are adhering to the Government advice and guidance on social distancing and self isolation. Encouragingly only one in ten disagreed with this statement.

**Agreement that people at your institution are adhering to the Government advice and guidance on social distancing and self isolation**

Weighted Base: 636 respondents. Balance: no response

**C8. To what extent do you agree that people at your institution are adhering to the Government advice and guidance on social distancing and self isolation?**

Education: teaching and learning  
experience and academic success

Seven in ten students in Scotland are concerned about the effect of Covid-19 on their final degree/course qualification. Similar numbers agree that their institution has provided online learning required as a result of the Covid-19 crisis and two in three say they feel confident that their institution is managing the crisis well.

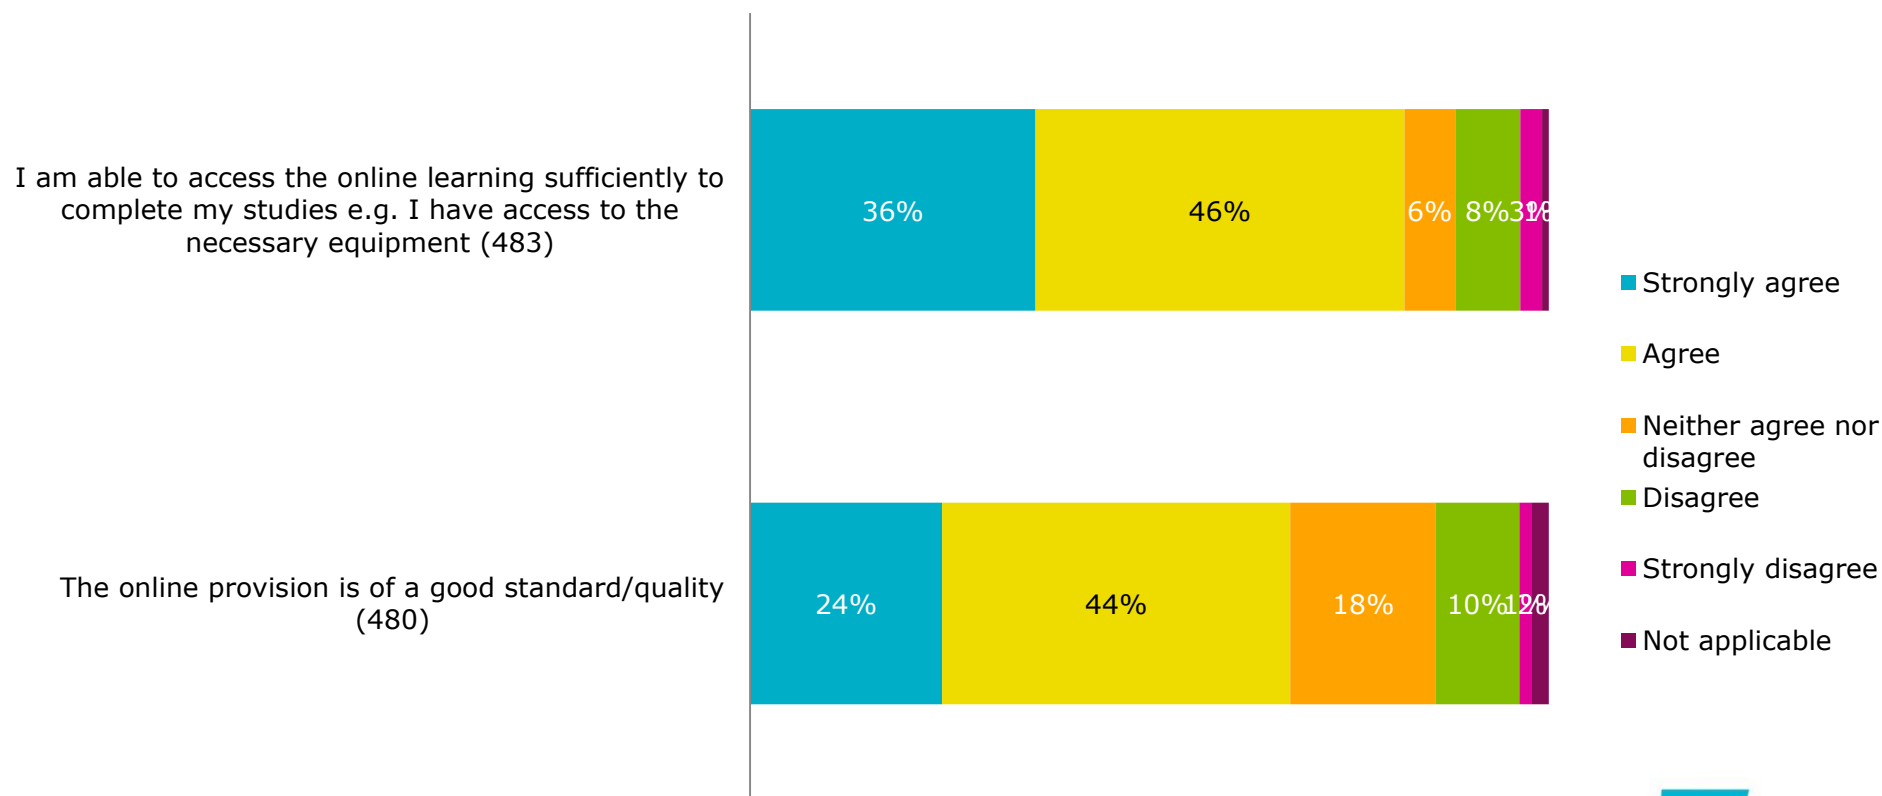

### Agreement with statements

■ Strongly agree 
 ■ Agree 
 ■ Neither agree nor disagree 
 ■ Disagree 
 ■ Strongly disagree 
 ■ Not applicable

Of the students who have had online learning provided by their institution, the majority agree that they are able to access the online learning sufficiently to complete their studies, and two in three agree the online provision is a good standard/quality.

### Agreement with statements – online learning has been provided

Weighted Base: (in brackets). Balance: those whose institution has not provided online learning in response to Coronavirus (Covid-19), no response

**D2. You mentioned that your institution has provided online learning in response to the Coronavirus (Covid-19). How far do you agree with the following statements?**

Of the two in five students who take part in a placement, three quarters believe the current Covid-19 outbreak will have a negative impact on their ability to complete their placement.

### Placement as part of course

■ Yes ■ No

### Impact you think Coronavirus (Covid-19) will have on your ability to complete your placement

Three in four students in Scotland have a vocational element to their course, and of these, three quarters believe the Covid-19 outbreak will have a negative impact on that element of their course.

### Vocational / vocational component

■ Yes ■ No

### Impact you think Coronavirus (Covid-19) will have on the vocational element of your course

Of those who receive learning support from their institution, just over half feel they have received adequate support to enable them to continue their work to the best of their ability throughout the Covid-19 pandemic.

### Learning support

■ Yes ■ No

### Agreement that you have received adequate support from your institution to enable best ability

Only 4% have themselves or known of someone who has been disciplined for non-attendance as an attempt to minimise social interaction since the covid-19 outbreak.

**Have you, or anyone you know been disciplined for non-attendance as an attempt to minimise social interaction since the outbreak of Coronavirus (Covid-19)?**

Weighted Base: 639 respondents.

**D9. Have you, or anyone you know been disciplined for non-attendance as an attempt to minimise social interaction since the outbreak of Coronavirus (Covid-19)?**

Health is the number 1 priority during the Covid-19 outbreak for students in Scotland. Finances are the second priority, followed by personal relationships, and then education

**Ranking of importance for yourself during the Coronavirus (Covid-19) outbreak**

Weighted base: 582 respondents Balance: no response

**D10. Please rank the following in order of importance for yourself during the Coronavirus (Covid-19) outbreak, where 6 is most important**

# Income and Financial Circumstances

Three in four students in Scotland are in either full or part time employment. One in ten have a zero hours contract. Two in five do not work at all.

### Job(s) held alongside studies

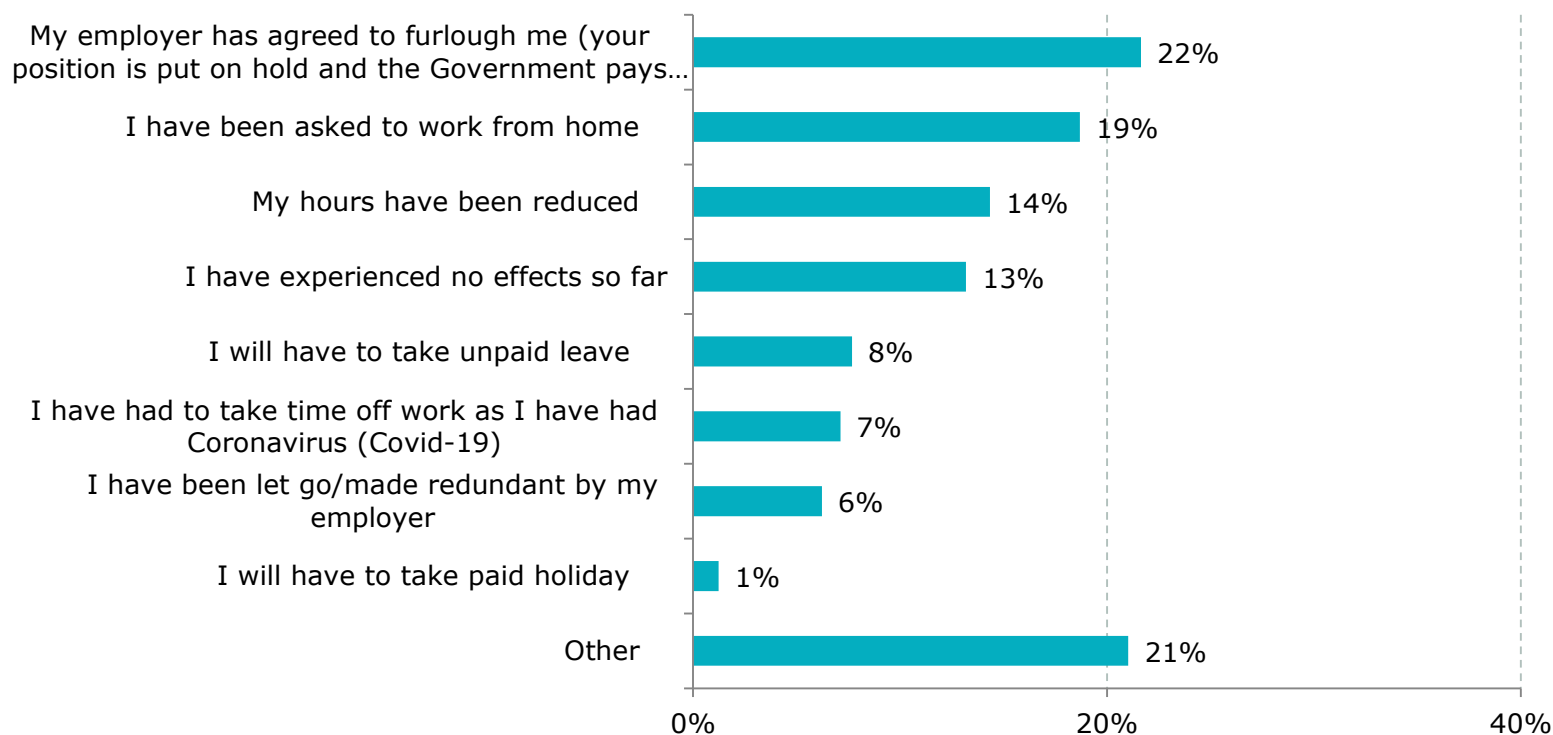

Weighted Base: 639 respondents.

**E1. Do you have a job alongside your study? If you have several jobs, please choose your main one.**

Of those students who currently work, one in five have been furloughed and a slightly fewer have been asked to work from home. One in seven say they have not been affected.

### How work has been affected by Coronavirus (Covid-19)

Almost half of students in Scotland say that the income of someone who supports them financially has been impacted by Covid-19, with one in seven saying it has had a major impact.

**Has the income of someone who helps support you financially been impacted by Coronavirus (Covid-19)?**

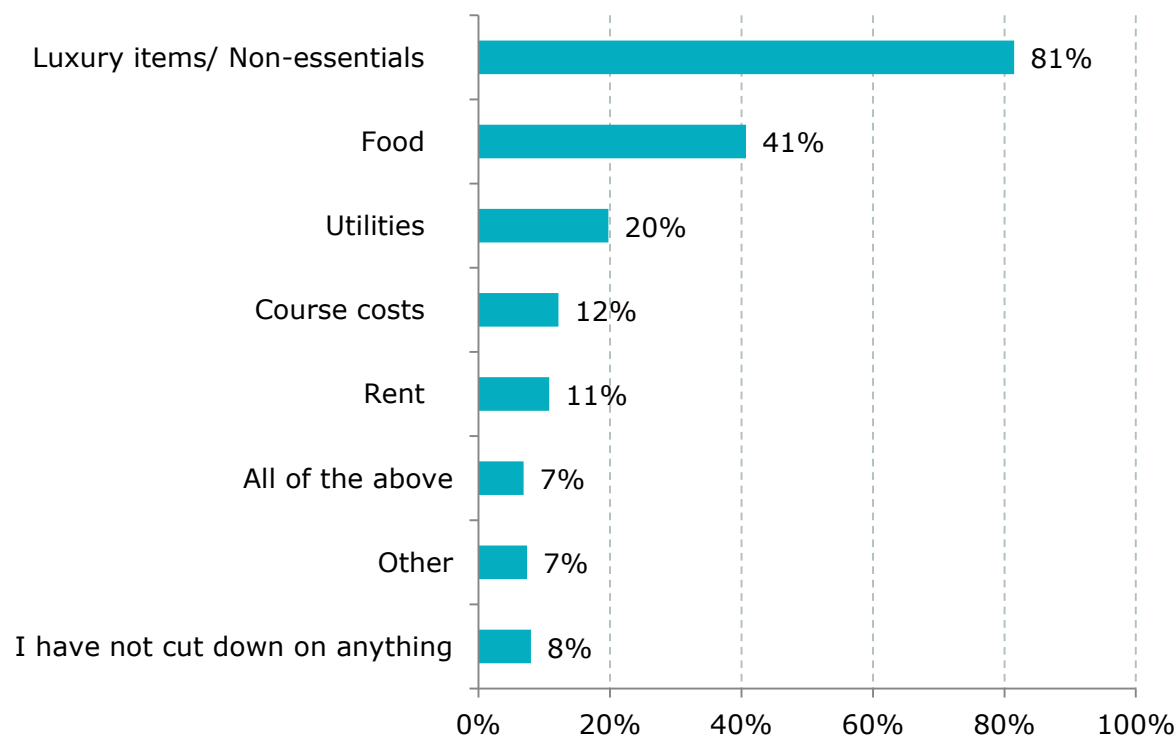

Four in five students are concerned about their ability to manage financially during the Covid-19 outbreak. One in four are 'very' or 'extremely' concerned.

### Concern about ability to manage financially during outbreak

The majority of students in Scotland have cut back on luxury/non-essential items since the Covid-19 outbreak. Two in five have cut back on food expenditure and around a fifth have cut back on utilities.

### Cutting back in terms of spending since Coronavirus (Covid-19) outbreak

Weighted Base: 637 respondents. Balance: no response

# Accommodation

One in five students who are living in privately rented accommodation/owned halls of residence say there is some likelihood that they will need to stay in their current property beyond the original planned contract date. Reasons given for doing so are because they can't travel/can't view other properties/can't empty out their belongings.

### Likelihood of remaining in current property beyond original planned contract data

Weighted Base: 330 respondents. Balance : those not living in privately rented accommodation or owned halls of residence

**F1. How likely is it, if at all that you will need to remain in your current property beyond the originally planned contract date as a result of the Coronavirus (Covid-19) outbreak?**

Over two in three are concerned to some extent about their ability to pay rent as a result of the Covid-19 outbreak. One in three are 'very' or 'extremely' concerned.

### Level of concern about financial impact of Coronavirus (Covid-19) on ability to pay rent

Weighted Base: 329 respondents. Balance : those not living in privately rented accommodation or owned halls of residence

**F3. How concerned are you, if at all, about the financial impact of Coronavirus (Covid-19) on your ability to pay rent?**

Three in four students in Scotland are concerned to some extent about their ability to pay their bills as a result of the Covid-19 outbreak. Again one in three are either 'very' or 'extremely' concerned.

### Level of concern about financial impact of Coronavirus (Covid-19) on ability to pay bills

Weighted Base: 330 respondents. Balance : those not living in privately rented accommodation or owned halls of residence

**F4. How concerned are you, if at all, about the financial impact of Coronavirus (Covid-19) on your ability to pay bills?**

One in three students have communicated with their landlord about rent payments, and one in five have communicated about their tenancy length but less about their health.

### Have you spoken to your landlord about these issues?

Weighted Base: 290 respondents. Balance : those not living in privately rented accommodation or privately owned halls of residence

**F5 and F6. Have you discussed or had any communication with your landlord/accommodation provider on any of the following issues during the Coronavirus (Covid-19) pandemic?**

Encouragingly the majority of students in private rented accommodation/owned halls of residence have not been issued with an eviction notice.

**Have you been issued with an eviction notice?**

Weighted Base: 329 respondents. Balance : those not living in privately rented accommodation or privately owned halls of residence

**F7. Have you been issued with an eviction notice?**

Just over one in four students would like to be released early from their rental obligations. The main reason given for this preference is the fact that learning has now moved online. The desire to be with their family is also a key reason students would like to be released early from their contracts.

### Preference for being released from rental early?

Weighted Base: 327 respondents. Balance : those who have been issued with an eviction notice

**F8. As a result of Coronavirus, would you like to be released from your current tenancy contract/rent obligations early and move out?**

### Why do you want to be released from your contract?

Weighted Base: 89 respondents. Balance : those who do not want to be released from their contract

**F9. Why do you want to be released from your contract?**

Just over one in four students would like to be released early from their rental obligations. The main reason given for this preference is the fact that learning has now moved online. The desire to be with their family is also a key reason for almost three quarters of students saying they would like to be released early from their contracts.

### Preference for being released from rental early?

Weighted Base: 327 respondents. Balance : those who have been issued with an eviction notice

**F8. As a result of Coronavirus, would you like to be released from your current tenancy contract/rent obligations early and move out?**

### Why do you want to be released from your contract?

Weighted Base: 89 respondents. Balance : those who do not want to be released from their contract

**F9. Why do you want to be released from your contract?**

Approximately one in five have been given the opportunity to be released early from their tenancy/rental obligations.

**Has your landlord given you the option to release early from your current contract?**

■ Yes ■ Yes, but with a fee ■ Yes, but not as early as I would like ■ No

Weighted Base: 329 respondents. Balance : those not living in privately rented accommodation or privately owned halls of residence

**F10. Has your landlord/accommodation provider offered you the opportunity to be released early from your current tenancy/rent obligations as a result of Coronavirus?**

# Consumption/Goods and Purchases

One in three students studying in Scotland say they have purchased something more than usual. In the main this has related to long life groceries. Snacks were mentioned by over two in five as items that they have purchased more of than usual. Soap, meat and toiletries were also popular items.

### Have you purchased more of anything than usual?

### What items have you bought/are considering buying more of in the last 3 weeks?

Weighted Base: 210 respondents. Balance : those who have not bought/do not expect to buy more than usual

**G2. Please tell us what items you have bought more of in the past 3 weeks, or are considering buying?**

In an attempt to manage self-isolation and movement restrictions students in Scotland are most likely to be buying books, additional media streaming, equipment to aid exercise or board games.

**What have you/are you considering buying to manage self isolation or movement restrictions?**

Weighted Base: 348 respondents. Balance: no response

**G3. Have you, or are you considering buying any of the below to manage either self isolation or the newly announced movement restrictions?**

# Government actions

Marginally more students (two in five) disagree than agree (one on three) that the UK Government is acting in the best interests of students. Three in five however disagree that the UK Government has adequately considered the difficulties students face as a result of the Covid-19 outbreak.

### Agreement with statements – UK Government

■ Strongly agree ■ Agree ■ Neither agree nor disagree ■ Disagree ■ Strongly disagree ■ Don't know/Not applicable

Weighted Base: (in brackets). Balance: no response

**H1. Please tell us how far you agree, if at all, with the statements below in relation to the Coronavirus (Covid-19) pandemic?**

Almost half of students studying in Scotland agree that the Scottish Government is acting in the best interests of students, while only a third agree that the Scottish Government is adequately considering the difficulties students are facing as a result of the Covid-19 outbreak.

### Agreement with statements – Scottish Government

Weighted Base: (in brackets). Balance: no response

**H2. Please tell us how far you agree, if at all, with the statements below in relation to the Coronavirus (Covid-19) pandemic?**

Seven in ten students in Scotland would like further info/guidance from governments on how their course/degree will be graded/awarded, and two in three would like further info/guidance on how this year's work will be assessed.

### Other information/guidance would like from governments

Weighted Base: 602 respondents. Balance: no response

**H5. What further information or guidance would you like the relevant Governments (UK, Scottish, Welsh and NI) to issue for students?**

The vast majority of students are aware to some extent of the measures the governments are taking so far to combat the economic impacts of the Covid-19. Over two in five are either 'very' or 'extremely' aware.

### Awareness of Government measures to combat economic impacts

Weighted Base: 357 respondents. Balance: no response

**H6. How aware are you, if at all, of the measures that the relevant Governments (UK, Scottish, Welsh and NI) have taken so far to combat the economic impacts of the Coronavirus (Covid-19) pandemic?**

# Self isolating/your health/movement restrictions

The vast majority of respondents currently connect with friends and family online. They are less likely to look for self help, or work in a supermarket

### What are you currently doing/plan to do to support your well being?

Weighted Base: 639

Respondents are more likely to be concerned about the wellbeing of their family than of themselves or their friends

### Agreement with statements

■ Strongly agree ■ Agree ■ Neither agree nor disagree ■ Disagree ■ Strongly disagree ■ Don't know/Not applicable

Weighted Base: (in brackets). Balance:

12. How far do you agree or disagree with the following statements as a result of Coronavirus (Covid-19)?

# The future

Students are most likely to show a higher level of concern for their exams and assessment, closely followed by the wider economy

### Levels of concern about impact of Coronavirus (Covid-19)

■ Extremely concerned    ■ Very concerned    ■ Concerned  
■ Somewhat concerned    ■ Not at all concerned    ■ Don't know/Not applicable

Weighted Base: (in brackets) respondents. Balance: no response

**J1. How concerned are you about the impact of Coronavirus (Covid-19) on the following?**

Students are concerned about the impact of the virus on so many aspects of their studies and student life. These are just the main areas highlighted

### Key themes:

- **Ultimate grades / predicting grades**
- **Lack of time** to prepare / meeting deadlines
- Lack of **motivation / focus / concentration**
- Impact on stress and health
- Having to work / submit online

*"Don't know how we will be assessed yet because our exams have been cancelled. University keeps saying they will give us updates but they don't been cancelled. University keeps saying they will give us updates but they don't."*

*"My ability to concentrate has been extremely difficult. I am also home schooling my son and although I fully support the strikes I am a 3rd year student and have had hardly any teaching time over this year. I'm concerned about my ability to produce good graded work."*

*"Having the motivation to get work done when the world is falling apart."*

Over a third of students simply don't know whether enrolment for next year's studies will take place in person on campus or remotely

**Confidence that next year of study enrolment will take place in person on campus**

Weighted Base: 636 respondents. Balance: no response

**J3. Thinking ahead to your next year of study, how confident are you that enrolment will take place in person on campus as opposed to remotely?**

## Students most commonly believe that they will return to study in September

### When expect to return to studying?

Weighted Base: 639 respondents.

**J4. When do you expect to return to studying at your college/university?**

Two in five do not expect that they will return to 'business as usual' when they recommence their studies. A third are unsure and believe it will be down to when they actually return to their course

### Expectation that when you return to studying it will be 'business as usual'

Weighted Base: 632 respondents. Balance: no response

**J5. When you return to studying at your college/university how far do you agree or disagree that it will be 'business as usual' e.g. Fresher's Fairs taking place, Clubs & Societies running as normal, large scale events happening etc.**
